work@danilz.me · Berlin, Germany

My name is **Danil Zakablukovskii**, I live and study in Berlin and still have a student visa (I wouldn't mind to change it to a blue card :).

I'm a full-stack developer (more backend than frontend).

- 5+ years of experience
- 3.500+ worked hours on Upwork (and 100% Job Success!)
- Contributing in open-source projects (Yii2, Redis)

My main tech stack is:

Backend:

PHP (7), node.js, Python, Yii2, Laravel, Redis, MySQL (MariaDB), PostgreSQL, MongoDB, Sphinx

Frontend:

React/Redux, Grunt/Gulp/Webpack, jQuery, SASS

DevOps:

Ansible, SaltStack

Other:

Websockets, Git, API building/integration experience, social services integration (FB, Twitter, Google/YouTube, SoundCloud, etc), high interest in UI/UX

Employment:

- [Spinitron](#), spring 2015 - present
Main feature is the autocomplete process for DJs (Sphinx over iTunes and Musicbrainz databases with a lot of various hacks and tricks), high availability, real-time stuff (chat, updates, etc), integrations with SoundCloud, Apple Music, Facebook, Twitter, Stripe.
React, Redux for various components (as a chat).
- [Tronic.fm](#), spring 2014 - spring 2015
Image processing, whole bunch of social services related work (crawlers, api usage, content creation and obtaining), Overture/FB/Resident Advisor tight Events and RSVP's integration.
- [Medvedev Marketing](#), summer 2012 - autumn 2013

Education:

- HTW Berlin, spring 2015 - Present, Computer Science with focus on big data and neural networks
- ISU Irkutsk, 2010 - 2012, Computer Science

Languages:

- Russian - native speaker
- English - Upper-Intermediate
- German - Upper-Intermediate

Other:

I keep these IT-related books on my table:

- “Code Complete”
- “The Pragmatic Programmer: From Journeyman to Master”
- “Introduction to Algorithms”

Also I like to create and mix **music**, studying, getting new knowledge, solving interesting and difficult things/tasks.

Mathematics, Physic, Biology, Astronomy - these branches of science have always interested me, so in my alternative life I would become a Biological Engineer or something like that.
